DATA SHEET

MINT

The MINT collection is characterized by a modern, elegant, and versatile design. It seamlessly blends into any collective installation. Available in chair or armchair versions, it is stackable for added convenience. With its steel tube structure and high-resistance polypropylene seat and back, it is an excellent choice for high-intensity use environments.

Uso

Dining rooms, waiting rooms and relaxations areas.

PLASTIC SEAT AND BACKREST

They have an ergonomic shape and a textured matte non-slip surface. They are made from recyclable polypropylene in black, white, and sand colours.

STRUCTURE

It is made with a round section 22mm steel tube. It can be finished with thermosetting polyester paint in white, black, and aluminium colours.

The MINT chairs are stackable up to 25 units.

Weight capacity: 120kg

ARMRESTS

They are made of polyamide and finished in the same colour as the seat and backrest.

Certifications

ANSI/BIFMA X5.1

EN 1728

All tests have been conducted according to Table 1 of EN 15373

Seniorcare Interiors holds the ISO 9001 and ISO 14001 certifications, attesting that its work processes maintain a high standard of quality, covering the entire product lifecycle from the design phase to production and subsequent distribution of the product.

Please consult the SENIORCARE finishing chart for information about the certifications of the fabrics.

Seniorcare Interiors is certified to ISO 9001 and ISO 14001 standards.
