

TECHNICAL DATA SHEET

RODAS

Design: Seniorcare Estudio

Collection featuring an elegant metal frame, characterized by its timeless design and exceptional sturdiness. These pieces are designed for high-traffic environments that require highly resistant and durable furniture. The collection includes chairs and armchairs, available in two backrest heights: low and high. A wide range of models with reclining backrests and footrests is also available, as well as a transport version.

RECOMMENDED USE

Waiting and rest areas, dining rooms, transport solutions.

STRUCTURES

Metal structures made of 40x20 mm steel tube with all edges rounded for user safety. Finished with epoxy paint available in a selection of colours (white, black, aluminium, sky blue, green, pink, and stone). The legs are fitted with high-durability, wear-resistant polypropylene end caps.

SEATS

Seat core made of compacted particleboard, covered with high-density (35 kg/m³) **fire-retardant**, high-resilience (HR) flexible polyurethane foam. The seat is attached to the frame at four points.

BACKRESTS

Wooden frame with an ergonomic design to ensure a perfect fit to the user's back. Covered with high-density (28 kg/m³) **fire-retardant**, high-resilience (HR) flexible polyurethane foam.

MECHANISMS

Rodas adjustable backrest: movement operated by an easy-to-use gas piston, activated by a lever from the seated position.

Rodas adjustable backrest and footrest: the chairs are equipped with two gas pistons operated by two levers from the seated position, allowing the seat and backrest to recline independently.

TRANSIT

The **TRANSIT version** includes high-quality 8 mm diameter castors, two of which are fitted with brakes, allowing the chair to be locked when stationary.

The castors used in the Rodas model comply with **EN 12528 standard - Castors and wheels for light duty applications**: *"Castors and wheels. Castors for light-duty applications. Requirements."*

All TRANSIT versions feature foldable footrests for greater comfort during transport.

TRANSIT chairs are available in a fixed version or with backrest adjustment, using an easy-to-operate gas piston activated by a lever.

ECOLOGY

ISO 14001 Certified.

The production processes of SENIORCARE INTERIORS are certified according to the ISO 14001 environmental standards to minimize any impact on the environment.

Seniorcare Interiors holds the Registration Certificate in the Carbon Footprint, Compensation, and CO₂ Absorption Projects Registry of the Ministry for the Ecological Transition and the Demographic Challenge. Carbon footprint code: 2024-a3268

CERTIFICATES AND STANDARDS

ISO 9001 Certified

SENIORCARE INTERIORS has its quality management certified in accordance with the ISO 9001 standard across all processes of design, manufacturing, and marketing of its products.

WARRANTY

5 years

FINISHES

Metal: all colour options indicated in our finishes book.

Upholstery: all fabrics listed in our finishes book.

All our fabrics—except Apollo—are vinyl-based and feature antibacterial, antimicrobial, and antifungal properties.

They offer high abrasion resistance, reaching up to 300,000 Martindale cycles in some cases.
